EXPERIENCE

Senior Full Stack Developer

D4Insight Tech & Emirates NBD

05/2024 - Present Dubai

- Designed and delivered **backend-heavy microservices** in **Node.js** for wealth trading journeys like **Monthly Investment Portfolio, Dual Currency Investment, and Physical Gold**.
- Recently delivered **Gold platform capabilities (buy/sell/redeem),** including redemption and delivery workflow integration.
- Implemented Kafka across buy, sell, redeem workflows as well as other long-running operations.
- Specialized in designing **resilient systems** using **retry strategies**, **idempotent operations, circuit breakers, and tracing.**
- Developed **AI Speech-to-Summary pipeline using Azure, Node.js, and LangChain**, enhancing client meeting summaries with **modular prompts and future multi-agent expansion.**
- Architected scalable investment workflows, including **Rights Issue and Dual Currency Investment (DCI)**, integrating real-time FX and market data to automate complex corporate actions.
- Enhanced user engagement and platform responsiveness by deploying real-time price alerts, increasing user retention by 15% and optimizing UI performance.
- Accelerated release cycles by 30% through Playwright automation and improved CI/CD reliability across web, iOS, and Android platforms.
- Led and coordinated cross-functional teams, delivering secure wealth-management experiences through effective collaboration with designers and developers.
- Designed and launched the Dual Currency Investment (DCI) product, integrating complex FX payout logic with real-time market data, expanding structured investment offerings.
- Supervised programmers and designers, enhancing performance by assigning tasks and monitoring against targets.

Lead Full Stack Developer

Royal Bank of Canada (RBC)

04/2023 - 05/2024 Toronto, Canada

- Led design & build of Wealth Management Advisor Portal (Node.js, Angular, GraphQL), enhancing advisor efficiency and cutting onboarding time by 25%
- Optimized microservices for heavy queries, improving response times by 40%
- Integrated GraphQL to streamline data fetch, vastly improving UI speed
- Managed development milestones from initial steps through final delivery

Lead Front End Developer

Accenture

05/2022 - 04/2023 Toronto, Canada

- Improved TD Bank's app compliance, addressing 100% of accessibility issues, resulting in design consistency across web platform.
- Created reusable Angular components to address development inefficiencies, boosting productivity by 20%.
- Streamlined development cycles by addressing slow processes, implementing CI/CD pipelines with Jenkins and Urban Code, resulting in faster releases.
- Optimized existing TypeScript codebase, resulting in a reduction in loading times and improved application performance.

SUMMARY

Dynamic **Full Stack & AI Engineering Leader** with 12+ years of experience designing **scalable, secure, and high-performance systems** across banking and enterprise domains. Evolved from system engineering to **solution architecture**, now specializing in **AI-driven automation**, **LLM orchestration**, and **agenetic system design** using **LangChain**, **Azure Cognitive Services**, and **Node.js**. Proven record of building robust microservices, optimizing performance, and leading cross-functional teams on **Wealth and Retail Banking** platforms. Passionate about transforming traditional architectures into **intelligent, context-aware solutions** that leverage **Generative AI, vector databases, and automation pipelines** to enhance decision-making and customer experience.

SKILLS

LangChain | Lang Graph | OpenAI API | Generative AI | Prompt Engineering | RAG (Retrieval-Augmented Generation) | Vector Databases (Chroma DB / Pine cone) | Agentic AI | n8n | MCP | Lang Smith | Azure AI Studio

Node.js | TypeScript | JavaScript | Python | Angular | React | Next.js | NestJS | GraphQL | ASP.NET MVC

Azure | Kubernetes | OpenShift | Docker | PCF | Jenkins | Railway Cloud

PostgreSQL | MongoDB | Firestore | Redis

Playwright | Jest | Mocha | Cypress

Microservices | Scalable APIs | REST & GraphQL Design

EXPERIENCE

Full Stack Developer

Tata Consultancy Services

10/2019 - 03/2022 Toronto, Canada

- Overcame scalability challenges by migrating almost 10+ apps to OpenShift, improving performance.
- Increased user engagement by {35%} by engineering interactive advisor dashboards with Angular and Redux.
- Enhanced app performance by addressing API inefficiencies, resulting in boost in response speed.
- Developed effective improvement plans in alignment with goals and specifications.

Technical Developer

Tata Consultancy Services Ltd

01/2015 - 09/2019 Mumbai, India

- Improved functionality by {30%} by engineering dynamic forms using Angular Reactive Forms to solve complex logic challenges.
- Transformed enterprise web applications by leading a UI/UX revamp, enhancing user satisfaction.
- Engineered robust ASP.NET MVC applications to address performance challenges, improving efficiency.
- Corrected, modified and upgraded software to improve performance.

Developer

Infosys

03/2012 - 12/2014 Pune, India

- Increased user engagement by {30%} by optimizing retail websites and resolving performance issues for a major U.S. retailer
- Reduced cycle time by {30%} by automating testing and deployment processes, eliminating release delays

EDUCATION

Master of Science in Artificial Intelligence

University of Texas

01/2027 Austin, USA

- Master of Science in Artificial
- Intelligence (In Progress)
- University of Texas, Austin
- USA Expected in

Bachelor of Science in Computer Science

WIEECT

07/2011 Mumbai

- Bachelor of Science in Computer
- WIEECT, Mumbai University

PROJECTS

Stock Insights Dashboard

AI based stock insights and summary

- https://efficient-nature-production.up.railway.app/

CanopyAds.io – AI-Enabled Outdoor Advertising Platform

Ad-tech Platform

- Built and deployed a self-serve ad-tech platform for the UAE taxi-top and billboard ads with real-time Google Maps previews, powered by a scalable Node.js + PostgreSQL backend on Railway.

Market Decoder – AI Stock News Summarizer

Summary of stocks

- Built an AI dashboard aggregating and summarizing financial news for stocks.
- https://studio--market-decoder-llx7v.us-central1.hosted.app.
